## HIGHEST WHEAT

## PRICE IN SIGHT

Louisville, Ky., May 10.—Increased prices will follow immediately on release on control of wheat by the United States Grain Corporation June 1, according to an opinion expressed by Alfred Brandeis, corporation member.

Mr. Brandeis left Louisville Wednesday night for Chicago to attend a conference called by Julius H. Barnes, United States Wheat Direct-

or, to debate the question of transportation, foreign wheat buying and other problems. The open conference will be held at Hotel La Salle.

"We are at sea in regard to the matter," Mr. Brandeis said, "and hope to gain from the other fellow an insight into the status of wheat following release of control."

In calling the conference, Mr. Barnes pointed out, in a letter, that inquiries at grain exchanges indicated unwillingness to re-establish co-called hedging market facilities, be-

cause of dangers in world disorganization. The chief hazards rest in adequate inland transportation and foreign government-dominated buying, he asserted.

Wheat producers in the United States have received a large per cent of the ultimate consumer price at home and abroad than those of any other land and their margin of profit has exceeded that obtained on any other commodity during the control period. Mr. Barnes said This is now jeopardized he added.
